### ***"Financial Markets Update" (Reschedule)***

Thursday, April 7, 6:30pm  
DWN HUB

Japan and the Mideast dominate the news and are keeping the markets in a volatile state. At the same time, the U.S. unemployment rate is dropping, the economy is growing at a good clip and The Dow is around 12,000 or *twice* its March, 2009 level. Concerns over the national debt, spending, the strength of the dollar and continued government stimulus efforts keep us wondering about interest rates and future inflation.

***How you interpret these facts into action is crucial for your peace of mind and your financial stability.***

Discovering What's Next ® , with the support of The Village Bank, invites you to the fourth in our Discover Realities Financial Markets Update series on Thursday, April 7, 6:30pm, DWN HUB, Newton Cultural Center, 225 Nevada Street, Room 104, Newton. Join local investment professionals **Jim Thompson** and **Pat Baillieul** of Village Financial Partners for this discussion and outlook as 2011 continues to unfold.
